So, my school organizes a sports day every year where we wear the colors of our council and either compete in events or watch. Being in year 12 I thought that would put some effort into what I was going to wear that day. I was at Wolverton House which is the Red House of school so it seems fitting to come as Hellboy for the day and make the best possible costume with a little budget. I would like to say a big thank you to my friend Stephanie for helping me put this together! How did you do that? Most of this outfit made of cardboard I had about lying in addition to a hot glue gun and paint. Other things I've already borrowed, borrowed, got free or bought too cheap. For example the coat I had was a riding coat and my dad he no longer used and make-up only costs me a few dollars. Where did you get there? I made all the outfits in my house and at my girlfriend's house, whenever I was there we were working on parts of the outfit for a week. What did you learn? I managed to find away about the money for most parts of this building from asking others to help find old things that can be modified into a suite what you need to, it just requires some imagination and effort. Also the eyelash adhesive and get it in your hair is not very nice. This intractable will be divided in to the main parts of my costume. - The right arm of death - Samaritan - horns - tail - belt - make-up - put everything together P.S. That's not exactly for the movie because I didn't want to spend any money or not much but I think it came out very well. Classic zombie costume is the basic Halloween element, one that both adults and children can pull off. And if you own any w-style clothes, or even a white or black shirt, the band is very easy to make. Zombies can sport a scary camouflage that will scare even the bravest trick or wizard. Choosing a baby zombie can be either scary or funny, depending on the makeup function and added accessories. Zombies make a great outfit set, too. Zombie family, complete with zombie or pet, is sure to be hit by any Halloween party. The most important part of an authentic-looking zombie costume is the makeup function. All you need is some black eyeliner, mascara, white and red costume makeup, rubber wounds, and soul gums. Start by creating white skin that turns to the head to depict the undead look. This is easily achieved with white costume paint, little water, and makeup sponge. Apply paint to your whole face with sponge, evening outside patches that are very heavy with a little water and apply more so it's very light. The trick is to make your base look semi-transparent. Then comes dark eyes, which can be achieved by applying eyeliner and black makeup in and around the eye area, extending them above the eye to the eyebrow and below them to the top of the cheekbone. Again, use the sponge to soften and mix the lines. Then, top it off with black mascara. Rubber wounds can be applied to the cheeks and forehead with soul glue, then blended into place with red blood-like makeup to round the appearance. You'll simply need some blood, not just on your face. The red paint works well for the clothing rig and scabies can be made from a cocoa powder mixture that produces a thick, chubby look. Dab some blood dripping on your face with a paint brush and add elastic pieces to your forearm for an extra effect. Before you decide on the outfit, find out what kind of zombie you want to be. Classic zombie undead can be easily achieved with regular clothes, but adding a theme to your getup is fun, too. You can be a zombie bride, zombie tourist, or zombie businessman with a savings shop finds only suitable for it. Adding tore to your clothes makes the outfit more realistic. Create rips by cutting the incision with scissors, then tearing with your hands. For an authentic look, cover your hands in a thin application of fake blood before you go in it to make it look like you're a victim of another night's predator. You can also apply ashes to your clothes to make them look dirty (as if you've spent weeks trolling the streets for minds). Close your eyes and chuck's ash friend on your outfit before you

walk out the door. You can also paint one hand with blood, then smear it through your shirt, or smear fake blood stains on your shirt with a paintbrush. Sad your clothes is an act in itself. Put your clothes on the trail and then drive over them with a car, ground them in cement. This is recommended only for thick cloth elements, however, as thin cotton clothing will surely be destroyed outside the ability to wear it, you should look beyond messy zombie hair and you can easily achieve this by Hair spray and use a teasing comb. For a zombie housewife, wear curls in your hair. Or, for a disheved look, create a topsy-turvy hairstyle by putting your hair up in a pig's tail, with one more pork tail flops and hair sticking to it. Clip the hair in the business up and pluck from a lot of loose threads. High men can do in irregular pattern, and then smear blood on selected filaments or make a bloody patch to re-cut the head. Wound.
